Industrial size: 1l / 33,8 fl OZ

24h
set time

8 pcs box
WAC00044

WAC00040

Field of application

Liner Refresher is a naturally formulated water-based product, containing enzymes and preservatives, designed to neutralize unpleasant odors. Odors are removed and not simply masked, as the molecules responsible for the odor are eliminated.

INSTRUCTIONS

1. Shake well before use.
2. Apply a generous amount of Liner Refresher by spray.
3. Wait at least 24 hours for the biological component responsible for odour elimination to act.
4. If the smell persists, repeat the procedure.

Warning

This product has been tested on KASK helmet only. Do not use on other helmets / products.

Maintenance tips

Always let your helmet air-dry after every day use.

Remove your liner and wash it with soap at low temperature. We suggest to do this monthly.
